3015 SERIES

Plunger and Tamper Switches

Part Numbers: 3011 3012 3013 3014
3015 3016 3017 3018 3019

Versatile

- Available in 3 mounting options for use as a Plunger Switch or as a Tamper Switch.

Reduce Service Calls

- Corrosion resistant, hermetically sealed reed switch works reliably in dirty, moist or dusty areas.

Rhodium Plated Contacts

- Not subject to sticking or freezing on seldom used doors or windows or other openings.

Improve Security

- Replace old corroded mechanical style tamper switches that have been shorted across.

Solid State Compatible

- Very low contact resistance permits use in low current systems.

Twelve Versions Available

- Closed Loop (N.O.), Open Loop (N.C.) and SPDT available in all 3 mounting styles.

All Parts Included

- Mounting screws and adjustable plunger screw are included.

UL Listed

- For indoor and outdoor use under UL Standard 634.
